

## Llangadog, Llandeilo & Llandovery Mens Shed 03

### Corona Virus

Presently we are looking for any interest within Llangadog, Llandeilo, Llandovery and the surrounding area for a Mens Shed. We are restricted on what we can do at present due to Covid 19 but it doesn't stop us recruiting shedders. If you know of anyone who might be interested then forward this newsletter on to them. The more shedders the merrier!

### Premises

Work is starting on the shed renovation tomorrow. Mike will disconnect all the electric lights and sockets and make it all safe to work on. Busy times ahead!

The skip is filling up quickly with lots of rubbish collected over the years!

## News

It is our ambition to update and send this newsletter to all members at least once a week as things progress with the sheds so that you can feel part of the process even though you cannot attend at present. It will show the progression of work on the sheds and anything else of interest. If you wish to contribute an article then please do so.

The skip is filling up fast with lots of rubbish and there will be more from shed 2. A delivery of wood arrived at about 8pm last Thursday night and had to be unloaded. The driver left then returned to take some back as we unloaded too much! There are also two 6 inch posts (see photo) ready for the roof extension. There are also several boards & a roll of felt to be used for weatherproof cladding if the weather turns bad after we start taking the sheds apart. The delivery of log cladding, insulation, slates, as well as windows & doors is expected soon. Keep your fingers crossed!

Went on a jolly to Brecon on Saturday to collect some donated power tools and 2x tool kits which was a very kind gesture. They are now in the shed ready to be used by members.

We have several new members since the last newsletter and the list below will be updated whenever a new member joins. It is important that we keep in contact with all members to ensure everyone stays healthy and safe.

## Zoom Video Conferencing

Llangadog, Llandeilo & Llandovery mens shed had its very first Zoom video conference where some of the members saw each other for the first time. There were 3 members present and nearly 4 at one stage. A big thank you to Jemma (Secretary) for setting this up. This proved to be a good way of getting to know each other virtually before we can actually meet up once restrictions are relaxed.

## Projects Suggested To Date

Gardening  
Wood Working  
Computers  
3D Printing  
Motorbikes  
Quad Bikes

Looking at the suggestions to date perhaps have one shed as a workshop for wood working or motorbikes and the other for cleaner projects like 3D printing or electronics.

All ideas are welcome - Whats your **passion**???
